

# CONTROL

for 

## BE MORE PROACTIVE

Integrate IBM i into your existing monitoring tool (like Nagios, PRTG, etc) (180+ 'Plug & Play' controls)

### Already 500+ installed systems

#### ONE TOOL TO MONITOR EVERYTHING

► Compatible with 90% of monitoring tools on the market\*, can be activated "by a single click"

- Many companies use tools like Nagios, PRTG, Zabbix,...\* to monitor all their servers; integrate IBM i easily into these tools.
- Give your Helpdesk the same user experience on IBM i as on other servers.
- Take advantage of these tools' user-friendly and ergonomic interfaces, offering power and a huge number of different settings.

#### IBM i MONITORING IS READY TO MEET ITS CHALLENGES

► + More than 180 IBM i-specific controls, almost nonexistent among the existing market supervision tools

- Monitor critical applications and sensitive data running on your IBM i.
- Benefit from relevant controls and alerts, based on M81's IBM i expertise and feedback from over 500 customer partitions.
- Save money compared to in-house development, and gain in responsiveness, stability, completeness and scalability.
- The finishing touch comes from your being able to integrate your existing specific controls into 'Control for i'.

#### CONTINUITY OF SERVICE, LOWER EMERGENCY RESPONSE COSTS

► Be alerted of problems before they become critical

- Monitor the status of operations (applications, ERP, EDI...) and their proper execution (batch, backups...).
- Supervise the proper operation of High Availability software.
- Measure CPU usage, disk occupancy and subsystem status to anticipate any drop in performance for users.
- Make sure there are enough tapes available before backup.
- Analyze this data to optimize resources
- Identify signs of hardware and software degradation, over- or under-utilized resources...

#### THE STRENGTHS OF CONTROL for i

- Compatible with 90% of proprietary, Open-Source or SaaS monitoring tools
- 180+ integrated controls
- Uses native IBM i commands
- "Plug & Play" product: quick and easy to install
- Easy and intuitive to use
- Functions for automated action or response to message
- Robust and stable: more than 500 systems installed worldwide
- Feature-rich: 7 years' experience with ~3 releases per year to keep pace with customer needs and technological developments
- User-praised hotline
- 2 modes: Perpetual licenses or Subscription

Introducing M81: Software house (ISV) specializing in IBM i. It offers 2 solutions: **Control for i**: see above. **Flash for i**: no longer impact IBM i production for backups, Save21, recovery copies, data extraction, or to refresh your test environments. Products installed on 1000+ LPARs: 600+ user companies rely on M81 in 23 countries (Europe & Americas).
